CURRENCY PANICS ENDED, C. S. HAMLIN DECLARES

Federal Reserve Board Governor Says Prosperity Is Returning With Improved Business.

CHICAGO, November 26 .- Business is steadily improving, prosperity is returning and there will be no more cur-rency panics, according to Charles S. Hamlin, governor of the federal reserve board, in an address at the banquet session of the Western Economic Society here last night. The business sessions of the society will begin to-morrow, the tenth annual conference

of the organization. "There can be no more currency panics such as we have had," Mr. Hamlin said, in speaking to the subject of "A Year's Experience Under the Federal Reserve Act and a Forecast." 'Neither will there be a general collapse of credits. This does not mean that you can prevent bad precedents from joy riding or such things, but as a general proposition panics will not recur with us again."

Theodore E. Burton, former United States senator from Ohio, spoke on "The Probable Financial and Industrial Effects After the War," saying that this country must lay foundations for the future at the present time if it would avoid the danger of depression that is likely to follow the close of the European struggle.

promptly gave the order to fire, but instructed the infantrymen not to harm any Mexican not engaged in sniping.

The snipers were silenced after the firing had continued about ten minutes. There followed a period of quiet, lasting an hour. Company L of the 12th Infantry, stationed at Titcomb Hill, discovered what appeared to be Villa cav-

# FOLLOWING BATTLE

Carranza Forces Hold Mexican Town: United States Troops Reinforced.

ONE DEAD, TWO WOUNDED ON THE AMERICAN SIDE

More Than Forty Villa Snipers, Who Began the Engagement, Reported Killed.

NOGALES, Ariz., November 27 .- With Gen. Villa's forces and the arrival here today of an additional 1,700 United Alberto Pani. director general of the States infantrymen to reinforce the border troops at this point, residents of this town expressed a feeling of security such as had not been enjoyed ince Villa forces took possession of Nogales, Sonora, following their defeat t Agua Prieta.

There was evidence of renewed condence in every quarter and the belief was generally expressed that PITTSBURGH WILL AIM should there be a recurrence of the exciting events of yesterday, when Villa snipers fired into American teritory from the Mexican side, killing one United States soldier and wounding wo others, such an attack would meet with prompt and vigorous response.

The troops scheduled to arrive today ompose a provisional brigade made up rom the 7th and 20th regiments of United States Infantry, stationed at Douglas, Ariz.

#### Losses of Americans.

Herbert La Cates, private in Company of the 12th Infantry, was the most eriously hurt of the two wounded American soldiers. He was shot in the abdomen. An operation performed last night was reported to have resulted satisfactorily and that it is believed that he had an even chance to recover Arthur L. Saune, private in the same The dead American soldier was Stephen Littles, twenty-two years old, who also was a member of Company L. His home was at Fairmont, N. C.

OPTICAL Co., 614 9th st.

OPTICAL Co., 614 9th st. livaro Obregon's forces, who entered he town following the evacuation by Villa forces, had executed eight alleged

Among the men executed were a Carranza captain and three Carranza soldiers. Four others whose identity could not be learned also were executed.

Forty Mexicans Reported Dead. Latest reports of the casualties mong the Villa snipers, whose firing into American territory precipitated the battle of yesterday, placed the total

dead at more than forty.

Efforts to ascertain the exact location of the Villa forces who evacuated the Mexican town opposite here thus far have proved futile. It was generally believed, however, that they had escaped toward Hermosillo, where for several days Villa soldiers have been endeavoring to take the town from the Carranza troops.

At a conference last night with a representative of Gen. Obregon, Col. W. H. Sage, commanding the United States troops, explained that the firing exchanged between the American soldiers and the Carranza cavalrymen was due in a measure to the lack of information by him that Gen. Obregon's forces under Col. Cardenas were approaching so closely. dead at more than forty.

#### Failed to Get Notice.

"I had arranged with the Carranza troops arrived," Col. Sage said. "The wires were down last night and the consul failed to receive the expected nformation."

Col. Sage commented on the leisurely retreat last night of the Villa forces, saying that this was explained by the fact that they did not look for the ar-rival of the Obregon forces until to-

rival of the Obregon forces until tomorrow.

Col. Sage received an affidavit last
night by Josua Urbana, a fireman who
worked with Edgar Bean, the American locomotive engineer who was
killed in Sonora early this week, which
asserts that the Villa commander, Beltran, shot Bean with his own hand.
According to the affidavit, the shooting
took place when the locomotive Bean
was driving jumped the track after
leaving Cananea, where the Villa men
had looted a bank and the properties
of the Cananea Consolidated Copper
Company.

#### To Corner Villa Troops.

Gen. Obregon is preparing today to take the field in an effort to run down the remaining Villa soldiers who fied from Mexican Nogales. Reports from across the border said

Gen. Bieguez, in command of the Carranza forces defending Hermosillo, capital of Sonora, had sent soldiers northward from that city. Gen. Obregon, it was said, hoped to corner the Villa soldiers by sending a column south from Nogales.

Early today a work train was dispatched from Mexican Nogales toward Hermosillo to repair the tracks damaged yesterday when the Villa garrison evacuated. This was followed by a military train filled with soldiers. Gen. Bieguez, in command of the Car-

#### Snipers Opened Fire.

Yesterday's fighting began when Villa snipers posted in Nogales, Sonora, opened fire on soldiers of the 12th United States Infantry, posted at the border. The Americans, who had endured taunts of cowardice for a week returned the fire.

The three American casualties were suffered in a brush with Carranza cavalry, fered in a brush with Carranza cavalry, who were mistaken for Villa troops as they rushed over a hill to enter the town. In the exchange of shots that followed three Carranza soldiers were shot.

One of them, a courier sent to apprise Col. W. H. Sage, the American officer on the line, that the Carranza forces had captured the Mexican town just across the border, was slightly wounded.

The firing across the border continued intermittently between 11 o'clock in the morning and 1 o'clock this afternoon.

in the morning and I o'clock this arternoon.

Col. Sage, who gave the order to fire
across the border, was not first in command at the time. Col. W. C. Brown of
the 10th Cavairy, was his senior, but,
having arrived only a short time before
the fighting, Col. Brown requested Col.
Sage to act, and he was on the line when
an intoxicated Villa soldier, fighting with
a woman, wrested his rifle from her and
fired at a party of American soldiers on
duty in the street that divided the American and Mexican towns.

#### Americans Return Shots.

This seemed to be a signal for snipers. Their bullets began to fall thickly in the American town. The American

alrymen trying to gain a position on a hill opposite on the Mexican side.

Firing promptly began, and while machine guns were being sent to the first aid of the American riftemen a brisk fire was exchanged. Early in this engagement Littles fell, mortally wounded. Later it became known that the Mexicans were Carranza cavalry under Col. Lazaro Cardenas, forming the advance guard of the advancing Carranza troops. Gen. Obregon and the American officers later exchanged apologies and regrets.

Promises to Be an Attraction

The Villa troops who participated in yesterday's outbreak were ordered off an overloaded troop train which started southward early yesterday. They returned to Nogales and continued the debauch started the night before. The return of the soldiers was marked by the flight from the Mexican town of peaceful residents, many of whom crossed the border into the United States.

#### TRAINS TO MEXICO CITY.

Through Service From Washington to Be Established Soon.

SAN ANTONIO, Tex., November 27 .-Through passenger service from Washington to Mexico City by way of Piedras Negras, Saltillo and Torreon will be established in a few days, it was announced after a conference of Southern Pacific and International and National Railways of Mexico.

National Railways of Mexico.

The Southern Pacific system is to supply at once 5,000 freight cars, fifty passenger cars and other equipment until such time as the Mexican railroads can be supplied with their own equipment. Negotiations for new equipment are now under way with American builders

#### ORDERS FOR REOPENING NAVY YARD STEEL PLANT

Small Foundry in New York to Man ufacture Castings for Government's Use.

opening of the small steel foundry at the navy yard, New York, which has a capacity only for castings weigh ing less than four tons.

"In a small way," said Secretary Daniels, in explaining his action, "the steel ed by the sergeant-at-arms of the naplant at the New York yard serves to illustrate the advantages of equipping the navy with facilities for the manufacture of its own materials. As soon as business conditions make private manufacturers anxious to secure work there is automatically a lowering of prices until a point is reached where it is generally more profitable for the government to buy than to manufacture. Under these conditions, it is a simple matter to suspend government manufacture and give the private industries work at a time when

#### Other Conditions Cited.

"When, on the contrary, there is government work is not sought for except at the higher prices that can be obained commercially-and it is not even then desired on account of the necessity of delaying commercial work in order to handle it—the navy plants can be again started up and the situation re-

lieved.
"It is the belief of the department that the same argument holds true in the mat-ter of, armor plates and projectiles, for which the Secretary intends to ask Con-gress for an appropriation for their manu-facture."

## This heat adds a new room!

The glassed-in porch provided with a genial AMERICAN Radiator makes a pleasant, well-warmed room that you never realized could be made so attractive and comfortable. many such glass-screened porches now-a-days. They make the most cheery and charming of bright rooms and it is significant that you never

You are seeing the advent of

find anyone attempting to warm them by stove or hot-air furnace. This hard test of porchroom heating is invariably guaranteed perfect with an outfit of

Many are the comforts with AMERICAN Radiators, which occupy so little space themselves and are so easily installed they will heat and open up many a desirable space or room which otherwise would be chill and unoccupied.

They are made in all sizes and shapes, and in many plain or pleasing designs for use in any oddly shaped out-of-the-way spaces, under windows, in corners, in curved bays-wide, narrow, tall, low-and are put in as easily in old buildings as in new ones. They do away with need of inner-doors, mantels and extra chimneys—a savings that more than offsets first cost of the outfit.

Cottages, residences, stores, churches, schools, hotels, etc., whether in the city or country, with or without water main connections, are economically and evenly heated by IDEAL Boilers and AMERICAN Radiators. They never rust or wear out. Any banker or real estate man will tell you that they are an investment, increasing the permanent property value and securing 10% to 15% greater rental.

A No. 1-25-W IDEAL Boiler and 575 ft. of 38-in. AMERICAN Radiators, costing the owner \$2.30, were used to heat this cottage. At this price the goods can be bought of any reputable, competent Fitter. This did not include cost of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

Their annual fuel saving feature is a big item, too. Your coal bill is materially reduced by the great efficiency of IDEAL-AMERICAN heating. All local fuels can be used and the cheapest coals are made to deliver all the heat to you in clean, uniform, healthful warmth and comfort throughout your home. Tell your architect that you want IDEAL Boilers and AMERICAN Radiators for your new building and if you are adding to or remodeling your present building see that the heating contractor gives you his estimate based upon these successful, guaranteed goods—which have stood the test of time and hard service in a million homes and buildings all over the world. Our large manufacturing volume and facilities enable us to produce IDEAL Boilers and AMERICAN Radiators at lowest costs and still maintain in them the highest standard of material, workmanship and features. Iron prices are now most attractive and at this season you get the service of the most skilled fitters. Send for free copy of our book "Ideal Heating" which covers the subject thoroughly, giving you valu-able information. Write for it today.

An unfailing, stationary Vacuum Cleaner—in sizes now at \$150 up! You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, etc. Sits in basement or side room and cleans through iron suction pipe running to each floor. Easily put in OLD buildings. Fully GUARANTEED. Lasts as long as the building—like radiator heating. Send for catalog.
